

Chin-Chia (James) Yang

f10942093@ntu.edu.tw | +886-923288623

Education

National Taiwan University (NTU), Taipei, Taiwan

Ph.D. student, Department of Computer Science and Information Engineering Jan. 2024-now

Master's program, Graduate Institute of Communication Engineering Sep. 2021-Jan.2024

Bachelor's degree, Electrical Engineering, Dept. of Electrical Engineering Sep. 2017-June 2021

Research Experience

Computer Vision and Machine Learning Lab, Academia Sinica, Taipei, Taiwan

Graduate Student Research Assistant, Advisor: Prof. Tyng-Luh Liu

- Synthetic Image Detection
- Information Bottleneck
- Continual Learning
- Neural Radiance Fields and 3D Gaussian Splatting
- 3D Reconstruction and Generation

Communication and Multimedia Lab, NTU, Taipei, Taiwan

Graduate Student Research Assistant, Advisor: Prof. Yung-Yu Chuang

- Collaborated industry-academia projects between NTU and ASUS
- Semantic Segmentation
- Image Denoising

Publication

Chin-Chia Yang*, Yung-Yu Chuang, Hwann-Tzong Chen, and Tyng-Luh Liu (*first author)

“HSIC Bottleneck for Cross-Generator and Domain-Incremental Synthetic Image Detection”

The Fourteenth International Conference on Learning Representations, Apr. 2026

Chin-Chia Yang*, Yi-Chou Chen, Shan-Ling Huang, and Homer H. Chen (*first author)

“Disparity-Guided Light Field Video Synthesis with Temporal Consistency”

IEEE Conference on Multimedia Information Processing and Retrieval, Aug. 2022

Award

National Science and Technology Council Graduate Research Fellowship

2024

Work Experience

Academia Sinica, Institute of Information Science

Research Assistant

Jun. 2023-Aug. 2023

- Conducted research on learning human NeRF avatar via pose correction
- Speed up Human NeRF avatar training and inferencing by combining instant-NGP

Microsoft Taiwan, Department of Computer Vision

Research Intern

Aug. 2021-Feb. 2023

- Researched aggregation algorithm for zero-shot face anti-spoofing with linguistic model features
- Conducted penetration test on anti-spoofing systems; identified weaknesses and proposed improvement directions

National Taiwan University, Department of Electrical Engineering

Mar. 2022-Dec. 2022

Teaching Assistant (Course: Linear Algebra, Data Structure)

- Volunteered as leading teaching assistant to give back to the student community
- Supported students who were unfamiliar with programming to help them catch up with the class
